

REMARKS

The above referenced patent application has been reviewed in light of the Notice of Allowance and Issue Fee Due. Assignee merely wishes to correct any minor typographical errors. No new subject matter is entered. Therefore, it is respectfully asserted that no prosecution history estoppel should apply as a result.

1. Allowable Subject Matter

Assignee gratefully acknowledges the allowance of the claims in the above-referenced application. While Assignee believes that the claims are allowable, Assignee does not acquiesce that patentability resides solely in each identified feature or combination of features, exactly as expressed by the Examiner, or that each feature or combination of features identified is required for patentability, or that equivalents of any of the recited features are outside the scope of the claims. Moreover, to the extent the Reasons for Allowance do not separately address the subject matter of each claim, Assignee does not acquiesce to any inference that any one claim does not present patentable subject matter independent of any other claim.

CONCLUSION

In view of the foregoing, it is respectfully asserted that all claims pending in this application, as amended, are in condition for allowance. If the Examiner has any questions, they are invited to contact the undersigned at 202-470-6450. Reconsideration of this patent application and early allowance of all claims is respectfully requested.

If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 50-3521.
